Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

What on earth is going on here? How will this personally affect me? Not much- what's a dollar these days- BUT the bigger question is why is the govt always trying to squeeze more money out of us? This so-called taxpayer watchdog republican administration is nothing but a thinly veiled attempt for the rich (you too!) to get richer. I could go on forever, but what's the point? None of you listen to the citizens anyways.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

John Pfeffer
